## PUBLIC HEALTH REPORTS.

### UNITED STATES.

#### DEATH OF PRESIDENT MCKINLEY.

On September 14, President William McKinley died, the cause of death being a gunshot wound of the abdomen received one week before at the hands of an assassin. He was buried September 19, at Canton, Ohio.

It is fitting to here record the death of the Chief Executive of the Nation, under whose general oversight the affairs of this Bureau and the Department to which it belongs have been conducted, and under whose special authorization some of its most important transactions have been performed.

To the admiration and love for President McKinley, inspired by his statesmanship, his manhood, and personal qualities, there should be added a just appreciation of his prompt response to requests for action in matters pertaining to the public health.

It is recalled that at the close of the Spanish-American war he immediately provided by Executive order for the necessary quarantine restraints in Cuba and Porto Rico and subsequently in the Philippines. Later he gave his support to the measures put in operation by the Treasury Department to insure safety from importation of disease with the returning troops from Cuba; and in 1899 when the yellow fever appeared in the National Soldiers' Home near Hampton, Va., his solicitude both for the public safety and for the 3,000 veterans of the civil war who were the inmates of that institution was such that he requested and received daily from this Bureau a report stating the progress of the disease and the success of the measures being taken to prevent its spread. He has promptly approved the detail of medical officers to serve in the offices of the United States consulates at many foreign ports, giving them a status which could only be secured by the President's signature.

He has approved of special commissioners to investigate special diseases.

In the effort to establish a sanatorium for the tuberculous patients of the U. S. Marine-Hospital Service, founded and now conducted not only for the benefit of the patients themselves, but in the interest of the public health, President McKinley, by Executive order, on request of the Secretary of the Treasury, promptly set aside the former military

reservation at Fort Stanton, N. Mex., for this avowed purpose, thus indicating his interest and approval of the measures towards the suppression of this contagious disease.

In these matters, as in all others, our deceased President manifested the high executive qualities and sound sympathetic judgment which will cause his memory to live in the respect and affection of the people.

[Reports to the Surgeon-General United States Marine-Hospital Service.]

*Influenza in Georgetown, S. C.*

GEORGETOWN, S. C., September 9, 1901.

SIR: I have the honor to report that there exists in this city a mild form of influenza, which was first considered as hay fever, in consideration of the present rice harvest season, but which must be now reported as above stated after careful investigation. The disease can hardly be said to be epidemic, but nearly so. The causation or source of infection has not yet been discovered.

Respectfully,

C. WILLIAMS BAILEY,  
Acting Assistant Surgeon, U. S. M. H. S.

*No cases of smallpox in St. Louis for the week ended September 8, 1901.*

ST. LOUIS, MO., September 10, 1901.

SIR: I have the honor to report that there were no new cases of smallpox and no deaths in this city for the week ended September 8, 1901.

Respectfully,

JAMES M. GASSAWAY,  
Surgeon, U. S. M. H. S., In Command.

*End of smallpox in Chester, Pa.*

CHESTER, PA., September 13, 1901.

SIR: Our smallpox outbreak is seemingly under control, no cases having been reported for twenty-three days. The following is the report to date, since May 9: Total cases, 85; deaths, 4.

Respectfully,

S. V. HOOPMAN,  
President Board of Health.

*Arrival at Reedy Island Quarantine of vessels from West Indian and South American ports.*

REEDY ISLAND QUARANTINE,  
via Port Penn, Del., September 8, 1901.

SIR: Through the medical officer in command of national quarantine service on Delaware River and Bay, I have the honor to report the arrival at this station of the following vessels:

September 3, 1901, American schooner *St. Croix*, from Baracoa, with cocoanuts; no passengers; bill of health signed by Acting Asst. Surg. M. Lores Llorens. American tug *Cuba* and barges *Havana* and *Sagua*, from Havana, in ballast; no passengers; bill of health signed by Surgeon Glennan.

September 5, 1901, British steamship *Kestor*, from Martinique via Santiago, with ore; no passengers; bill of health signed by Assistant Surgeon Von Ezdorf.

Respectfully,

T. F. RICHARDSON,  
Assistant Surgeon, U. S. M. H. S., In Command.

## REPORTS FROM THE MEXICAN BORDER.

*Eagle Pass, Tex.—Inspection service.*—I have the honor to make the following report for the week ended September 7, 1901:

Date.	Number of persons.	Sanitary condition.	Condition of—		Where from.	Destination.
			Baggage.	Merchandise.		
Sept. 1 (a)	141	Good .....	Good .....	Good .....	Various points in Mexico.	Various points in United States.
Sept. 2 (b)	139	.....do.....	.....do.....	.....do.....	.....do.....	Do.

a Fumigated 220 pieces of Pullman soiled linen.

b Fumigated 215 pieces of Pullman soiled linen.

c Three persons two days from Tampico held in detention and baggage fumigated; fumigated 198 pieces of Pullman soiled linen.

d Fumigated 210 pieces of Pullman soiled linen. Found a man dead in Pullman car; had been a long sufferer with diabetes mellitus; immediate cause of death was morphine poisoning.

e No linen.

f Fumigated 379 pieces of Pullman soiled linen.

g Fumigated 258 pieces of Pullman soiled linen.

LEA HUME,  
Sanitary Inspector, U. S. M. H. S.

*Laredo, Tex., September 8, 1901—Inspection service.*—I have the honor to submit following report for week ended September 7, 1901: Number of passenger trains entering from Mexico inspected, 14; persons on passenger trains entering from Mexico inspected, 631; immigrants inspected, 24; immigrants vaccinated, 5. Two persons four days out from Vera Cruz, Mexico, refused entry until completed ten days and had baggage disinfected. Disinfected 4,632 pieces of Pullman Company soiled linen from Mexico.

H. J. HAMILTON,  
Acting Assistant Surgeon, U. S. M. H. S.

*Statistical reports of States and cities of the United States—Yearly and monthly.*

CALIFORNIA—*Los Angeles.*—Month of August, 1901. Census population, 102,479. Total number of deaths, 128, including diphtheria, 2; enteric fever, 2, and 30 from tuberculosis.

*Sacramento.*—Month of August, 1901. Estimated population, 30,000. Total number of deaths, 31, including enteric fever, 2; whooping cough, 1, and 1 from tuberculosis.

INDIANA—*Evansville.*—Month of August, 1901. Estimated population, 65,000. Total number of deaths, 72, including enteric fever, 3, and 17 from tuberculosis.

IOWA—*Davenport.*—Month of August, 1901. Census population, 35,254. Total number of deaths, 49, including scarlet fever, 1, and 4 from phthisis pulmonalis.

The Iowa Health Bulletin says:

Outbreaks of the following infectious diseases have been reported as having occurred at the several places named during the month of July:

*Diphtheria.*—Norway.

*Scarlet fever.*—Grimes and Union townships, Cerro Gordo County; Merservey; Providence Township, Buena Vista County; Liberty Township, O'Brien County; Sulphur Springs; Lee Township, Madison County.

*Smallpox*.—Waucoma; Red Oak Township, Montgomery County; Fairport; Rock Valley; Winterset; Welcome Township, Sioux County; Fraser; Belle Plaine; Alton; Corydon; Boone; Madison Township, Butler County; Palo; Lake City; Jasper Township, Carroll County; Hamburg; Denison; Lucas; Cleveland; Le Mars; Arion; Springville; Dow City; Louise; Hamilton and Dodge townships, Boone County; Vienna Township, Marshall County; Grant Township, Buena Vista County; Wall Lake Township, Sac County; Boyden; Jasper Township, Adams County.

LOUISIANA—*New Orleans*.—Month of August, 1901. Estimated population, 300,000—white, 220,000; colored, 80,000. Total number of deaths, 457—white, 285; colored, 172—including diphtheria, 2; enteric fever, 15; whooping cough, 2, and 59 from tuberculosis.

MARYLAND—*Baltimore*.—Month of August, 1901. Estimated population, 518,000—white, 439,000; colored, 79,000. Total number of deaths, 893—white, 668; colored, 225—including diphtheria, 4; enteric fever, 21; whooping cough, 7, and 102 from tuberculosis.

MICHIGAN.—Reports to the State board of health, Lansing, for the week ended September 7, 1901, from 81 observers, indicate that bronchitis, diphtheria, erysipelas, and enteric fever were more prevalent and remittent fever and whooping cough were less prevalent than in the preceding week. Cerebro-spinal meningitis was reported present at 2, whooping cough at 7, measles at 11, diphtheria at 25, smallpox at 26, scarlet fever at 65, enteric fever at 106, and phthisis pulmonalis at 183 places.

MINNESOTA—*Minneapolis*.—Month of July, 1901. Census population, 202,718. Total number of deaths, 235, including diphtheria, 19; enteric fever, 5; measles, 1; scarlet fever, 2; whooping cough, 2, and 21 from tuberculosis.

*St. Paul*.—Month of August, 1901. Estimated population, 165,000. Total number of deaths, 129, including diphtheria, 2; enteric fever, 2; whooping cough, 1, and 20 from tuberculosis.

*Winona*.—Month of August, 1901. Estimated population, 20,000. Total number of deaths, 17, including 1 from phthisis pulmonalis.

NEW YORK.—Reports to the State board of health, Albany, for the month of July, 1901, from 156 cities, towns, and villages, having an aggregate estimated population of 7,268,000, show a total of 12,298 deaths, including diphtheria, 125; enteric fever, 99; measles, 79; scarlet fever, 105; whooping cough, 73; smallpox, 89, and 1,072 from phthisis pulmonalis.

The Monthly Bulletin, says:

The mortality of the month was excessive, being above the average of July, which usually has the largest number of deaths of any month in the year. The average temperature was several degrees above the normal, especially during the first few days, and the increase of mortality is chiefly due to its effects. The city of New York reports 1,155 deaths from insolation and in the entire State 1,283 deaths were ascribed to the effects of heat. There were 8 deaths reported from lightning stroke, and 111 deaths occurred from drowning, altogether making over

2,000 deaths, attributed to accidents and violence, much beyond any former record. The acute diarrheal mortality was also high in the metropolis, but not excessive in the rest of the State, being hardly noticeable in the rural part of the State. The rural death rate was 13.0 per 1,000 population, the urban being 23.0, while that of the entire State was about 20.0. Diarrheal diseases caused 22.5 per cent of the deaths of the maritime district, or three times the ratio of the rest of the State.

There were 400 deaths from pneumonia out of 602 from all acute respiratory diseases, and of 400 deaths from diseases of the urinary system (outside of New York City) 240 were from Bright's disease.

Smallpox is reported as causing 89 deaths, a number in excess of that of any heretofore recorded, 74 having occurred in June; of these, 80 occurred in New York City, where about 250 new cases developed during the month of July, the last four weeks showing a decrease. There were 5 deaths in Yonkers, 1 in Peekskill, 1 in Hempstead, and 1 each in New Berlin and Whitehall. Since the first of July smallpox has existed at 20 localities outside of New York City, and during August 22 new cases have been reported, the only new localities reporting during the month being Schenectady and Tupper Lake, in each of which 1 case imported from without has come to light. There is a general diminution in its prevalence.

*Saratoga Springs.*—Month of August, 1901. Estimated population, 12,400. Total number of deaths, 36, including enteric fever, 2, and 2 from tuberculosis.

*OHIO—Zanesville.*—Month of August, 1901. Census population, 23,500. Total number of deaths, 26, including diphtheria, 1; enteric fever, 1; whooping cough, 1, and 3 from tuberculosis.

*TEXAS—San Antonio.*—Month of August, 1901. Census population, 53,321. Total number of deaths, 112, including diphtheria, 2; enteric fever, 6, and 17 from tuberculosis, of which 9 were of nonresidents.

*UTAH—Ogden.*—Month of August, 1901. Estimated population, 18,000. Total number of deaths, 20, including 2 from tuberculosis.

*VIRGINIA—Roanoke.*—Month of August, 1901. Census population, 21,495. Total number of deaths, 30, including enteric fever, 1, and 5 from tuberculosis.

## FOREIGN AND INSULAR.

### BRITISH HONDURAS.

#### *Report from Belize—Fruit port.*

BELIZE, BRITISH HONDURAS, *September 1, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended August 31, 1901:

Population, according to census of 1901, 9,114; present officially estimated population, 9,114. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 6. Prevailing diseases, malarial in character. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: August 30, steamship *S. Oteri*; crew, 35; passengers from this port, 4; passengers in transit, 15; pieces of baggage disinfected, 15. August 31, steamship *Managua*; crew, 17; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

J. GREY THOMAS,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

### CANADA.

*Inspection of immigrants at Québec for the week ended September 7, 1901.*

QUEBEC, CANADA, *September 7, 1901.*

SIR: I have the honor to report that for the week ended September 7, there were inspected 418 immigrants; passed, 413; detained, 5; cause of detention, psoriasis, 1; scoliosis, 1; trachoma, 3.

Respectfully,

VICTOR G. HEISER,

*Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

### COLOMBIA.

#### *Report from Bocas del Toro—Fruit port.*

BOCAS DEL TORO, COLOMBIA, *September 4, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended September 3, 1901:

Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week,

none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 2. Prevailing diseases, malarial. One death was from tuberculosis and 1 gunshot wound. General sanitary condition of this port and the surrounding country during the week, fairly good—an increase of malarial fever of a moderately mild type.

Bills of health were issued to the following vessels: August 28, steamship *John Wilson*; crew, 18; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. August 31, steamship *Banes*; crew, 17; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none; steamship *Stillwater*; crew, 27; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

PAUL OSTERHOUT,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

CUBA.

*Reports from Cienfuegos, Casilda, and Santa Cruz del Sur.*

CIENFUEGOS, CUBA, *September 2, 1901.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to transmit the following report for the district under my command for the week ended August 31, 1901: Nine deaths have occurred in this city, of which 1 occurred in the civil hospital. No contagious or infectious diseases reported during this period. Following is a report showing causes of death: Hemorrhage, cerebral, 2; paludism, 1; meningitis, 1; atrepsia, 1; pernicious fever, 1; tuberculosis, 1; pneumonia, 1; eclampsia, 1. Death rate per 1,000 inhabitants, 11.73. Ten vessels inspected and passed, granted pratique; 16 bills of health were issued vessels leaving Cienfuegos; 8 health certificates issued passengers for the United States; 5 pieces baggage of said passengers inspected and passed, and 6 pieces baggage, for points in the southern States, disinfected. August 26, the bark *Joven Ana*, from Montivideo, cargo jerked beef, was disinfected upon arrival. August 27, steamship *Leonora* was disinfected. This vessel was disinfected August 16, but did not receive orders to clear for Pensacola until August 25, therefore was redisinfecting previous to departure.

*Casilda.*—Acting Asst. Surg. A. Cantero reports 6 deaths in the city of Trinidad during the week; no contagious diseases reported; 12 vessels inspected and passed, granted pratique, and 1 bill of health issued to foreign-bound vessel.

*Santa Cruz del Sur.*—Dr. Quevedo, temporarily relieving Acting Assistant Surgeon Xiques, reports no deaths in that port during week; no contagious or infectious diseases reported; 9 vessels were inspected and passed, granted pratique, and 1 bill of health was issued to foreign-bound vessel.

Following is a recapitulation of the weekly reports of this district for the month of August:

*Cienfuegos.*—Eighty-five deaths occurred in this city, of which 20 were in the civil hospital; 44 vessels inspected and passed, granted pratique; 1,397 members of crews of vessels inspected and passed; 485 passengers inspected and passed; 2 alien steerage passengers inspected and allowed to land; 74 bills of health issued vessels leaving Cienfue-

gos; 6 vessels disinfected; 15 health certificates issued passengers for the United States; 17 pieces baggage inspected and passed, and 6 pieces baggage disinfected.

*Casilda*.—Twenty-eight deaths have occurred in the city of Trinidad; 51 vessels were inspected and passed, granted pratique, and 2 bills of health were issued foreign-bound vessels.

*Santa Cruz del Sur*.—Three deaths have occurred in that port; 24 vessels were inspected and passed, granted pratique, and 1 bill of health was issued foreign-bound vessel.

Respectfully,

E. F. NUNEZ,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

*Inspection of immigrants at Cienfuegos for the week ended August 31, 1901.*

CIENTFUEGOS, CUBA, September 2, 1901.

SIR: I herewith submit report of alien steerage passengers at this port during the week ended August 31, 1901: August 26, steamship *Veritas*, from Barranquilla, Colombia, with 2 immigrants.

Respectfully,

E. F. NUNEZ,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

*Report of immigrants inspected at the port of Cienfuegos, Cuba, during the month of August, 1901.*

Total number of immigrants inspected, 2; number passed, 2.

E. F. NUNEZ.

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

*Reports from Matanzas, Cardenas, and Isabela de Sagua.*

MATANZAS, CUBA, September 3, 1901.

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to submit herewith the following sanitary report of the quarantine district under my command for the week ended August 31, 1901:

*Matanzas*.—Eleven deaths occurred in the city of Matanzas during the period covered by this report, showing a mortality of 12.67 per 1,000. The principal causes of death were as follows: Tuberculosis, 2; arterio-sclerosis, 2; enteric fever, 1; Bright's disease, 1; entero-colitis, 1; cerebral hemorrhage, 1; other causes, 3. The following cases of infectious or contagious character were reported: Enteric fever, 3; diphtheria, 2; yellow fever, 2.

On August 31, 1901, 2 cases of yellow fever were reported by the municipal health authorities as being under treatment at the civil hospital. On investigation, it was found that they had not originated in this city. The history of the cases is as follows: A party of 6 Spaniards disembarked at Havana July 24. They were removed at once to Triscornia detention camp, where they remained until the 26th. On the same day they returned to Havana, and left for the town of Limonar, province of Matanzas, on the 27th, where they went to work on a plantation situ-

ated about 12 miles from the town. Two of these men were taken sick August 21, and were sent by rail to the civil hospital, at Matanzas, on the 27th. From the above, it would appear that Havana was the source of infection. The patients were at once placed in a "mosquito-proof" room. The municipal authorities have sent a physician to Limonar to investigate the outbreak.

Four vessels were inspected and passed on arrival and 2 were passed without inspection; 6 bills of health were issued to vessels leaving this port; 63 health certificates were issued to persons leaving the island; 71 pieces of baggage were inspected and passed, and 2 pieces passed without inspection.

During a heavy squall from the southeast (fortunately of short duration), on August 30, the barge *Guardian* dragged both her anchors and drifted a distance of about three-quarters of a mile, coming dangerously close to the shore. A tugboat was immediately sent to her assistance and she was towed to a safe anchorage.

*Cardenas.*—Acting Asst. Surg. F. Torralbas reports that 7 deaths occurred in Cardenas during the week of the following causes: Tuberculosis, 1; umbilical hemorrhage, 1; cancer, 1; nephritis, 1; heart disease, 1; cirrhosis, hepatic, 1; marasmus, 1. No case of infectious or contagious character was reported. Ten vessels arrived and were inspected and passed. Eleven bills of health were issued to vessels leaving the port. The death rate during the week was 14.71 per 1,000.

*Isabela de Sagua.*—Acting Asst. Surg. Pedro Garcia Riera reports that 8 deaths occurred in the municipal district of Sagua, of the following causes: Heart disease, 2; enteritis, 1; cancer, 1; bronchitis, 1; meningitis, 1; infantile tetanus, 1; tuberculosis, 1. No case of infectious or contagious character was reported. The death rate during the week was 19.56 per 1,000. Four vessels were inspected and passed on arrival and 9 passed without inspection; 13 bills of health were issued to vessels leaving the port.

*Caibarien.*—Acting Asst. Surg. Leoncio Junco reports that 4 deaths occurred in Caibarien during the week of the following causes: Eclampsia, 2; peritonitis, 1; heart disease, 1. No case of infectious or contagious character was reported. The death rate during the week was 24.14 per 1,000. Twelve vessels arrived during the week and were passed without inspection; 10 bills of health were issued to vessels leaving the port.

Respectfully,

G. M. GUITÉRAS.

Passed Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

HONDURAS.

*Report from La Ceiba—Fruit port.*

LA CEIBA, HONDURAS, August 31, 1901.

SIR: I have to make the following report of the conditions and transactions at this port during the week ended August 31, 1901:

Present officially estimated population, about 3,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths

from plague during the week, none; number of deaths from other causes during the week, none. Prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: August 26, steamship *Breifond*; crew, 15; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none; steamship *Usk*; crew, 20; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. August 29, steamship *Sunnica*; crew, 14; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none; steamship *Ely*; crew, 20; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

R. H. PETERS,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

*Report from Puerto Cortez—Fruit port.*

PUERTO CORTEZ, HONDURAS, September 3, 1901.

SIR: I have to make the following report of the conditions and transactions at this port during the week ended September 3, 1901:

Population, according to census of 1896, 1,856; present officially estimated population, 2,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from small-pox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none; prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, very good. Proper passenger and ship certificates inclosed.

Bills of health were issued to the following vessels: August 24, steamship *N. Oteri*; crew, 35; passengers from this port, 5; passengers in transit, none; pieces of baggage disinfected, 8. August 31, steamship *Adria*; crew, 15; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. September 2, steamship *España*; crew, 14; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

SAMUEL HARRIS BACKUS,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

MEXICO.

*Report from Vera Cruz.*

VERA CRUZ, MEXICO, September 3, 1901.

SIR: I have the honor to transmit the following report for the week ended August 31, 1901: Forty-two deaths were reported during the past week, 2 being from yellow fever. An examination of the mortuary report shows the death rate from intestinal diseases in this city to be as high as from tuberculosis. The mortality from the various forms of malaria has increased.

The steamship *Monterey* sailed on August 29 for New York via Havana and Progreso, with 134 passengers. Nearly all of the New York passengers were from the City of Mexico, and, being first-class, their baggage was passed on inspection.

I inclose the mortuary report for the passed week.

Respectfully,

D. E. DUDLEY,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON GENERAL,

*U. S. Marine-Hospital Service.*

#### NICARAGUA.

##### *Reports from Bluefields—Fruit port.*

BLUEFIELDS, NICARAGUA, *August 29, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended August 28, 1901:

Population, according to census of 1894, 3,000; present officially estimated population, 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 5. Prevailing diseases, malaria, in its manifold types, not pernicious, mainly of a tertian form, enteritis complications not uncommon. General sanitary condition of this port and the surrounding country during the week was fairly good. Five deaths occurred in this town, viz: August 23, a Spaniard, male, age 18, from chronic dysentery; August 24, a Spaniard, male, age 50, chronic dysentery; August 26, a negro, male, age 20, chronic dysentery; also a negro, female, age 3, malarial fever; August 28, a negro, male, age 2, malarial fever. Four of which died in the local hospital. Six inclosures, ship and passenger's certificates.

Bills of health were issued to the following vessels: August 22, steamship *Utstein*; crew, 15; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. August 25, steamship *Hiram*; crew, 15; passengers from this port, 4; passengers in transit, none; pieces of baggage disinfected, 8.

Respectfully,

WM. H. CARSON,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

BLUEFIELDS, NICARAGUA, *September 5, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended September 5, 1901:

Population, according to census of 1894, 3,000; present officially estimated population, 4,000. Number of cases and deaths from yellow fever

during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 3. Prevailing diseases, mild type of malarial fever and enteric disorders, mainly dysentery. General sanitary condition of this port and the surrounding country during the week has been good. Three deaths occurred during the week, in this port, viz, 1 adult, male, negro, and 2 adults, males, Spaniards, and were due, respectively, to malarial fever, chronic dysentery, and senility. The 2 deaths last mentioned occurred in the San Pablo Hospital here.

Bills of health were issued to the following vessels: September 1, steamship *Condor*; crew, 15; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. September 4, steamship *George W. Kelley*; crew, 19; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

WM. H. CARSON,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

#### NOVA SCOTIA.

*A case of smallpox on schooner Thalia at Halifax.*

WASHINGTON, D. C., September 11, 1901.

SIR: I have the honor to inform you, for the information of the U. S. Marine-Hospital Service, that a telegram has to-day been received from the consul-general at Halifax, which reads as follows: "American schooner *Thalia*, from Gloucester; 1 case smallpox, seaman, to hospital; 15 crew landed, quarantine grounds; schooner to be disinfected."

Respectfully,

ALVEY A. ADEE,

*Acting Secretary.*

HON. SECRETARY OF THE TREASURY.

#### PORTO RICO.

*Report from Ponce.*

PONCE, P. R., September 2, 1901.

SIR: Through the chief quarantine officer for Porto Rico, I have the honor to transmit herewith the quarantine and abstract of bills of health reports for the week ended August 31, 1901; also the report of immigrants inspected and summary of transactions for the month of August, 1901. Three vessels were inspected and passed and 6 bills of health were issued during the week; 2 pieces of baggage and 1 sack of mail were disinfected coming from Puerto Plata in the steamship *Maria Herrera*; 5 pieces disinfected in Cuba were inspected and passed. The American steamship *Californian* sailed on the 28th with 319 emigrants for Hawaii via New Orleans. The sanitary condition of the city has been improved a little by the recent rains flushing the foul street gutters.

Respectfully,

W. W. KING,

*Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*

**Green Turtle Cay—Abaco.**—Two weeks ended August 29, 1901. Estimated population, 3,314. No deaths and no contagious diseases reported.

**Nassau.**—Two weeks ended September 3, 1901. Estimated population, 12,235. No deaths and no contagious diseases reported.

**BELGIUM—Ghent.**—Month of May, 1901. Estimated population, 153,740. Total number of deaths, 259, including diphtheria, 2; enteric fever, 2; scarlet fever, 1; whooping cough, 1, and 25 from tuberculosis.

Month of June, 1901. Total number of deaths, 213, including diphtheria, 1; enteric fever, 1; whooping cough, 5, and 19 from tuberculosis.

Month of July, 1901. Total number of deaths, 263, including diphtheria, 1; enteric fever, 2; scarlet fever, 1; whooping cough, 3, and 21 from tuberculosis.

**BRAZIL—Pernambuco.**—Two weeks ended July 31, 1901. Estimated population 200,000. Total number of deaths, 282, including enteric fever, 2; whooping cough, 2; smallpox, 44, and 31 from phthisis pulmonalis.

**BRITISH COLUMBIA—Victoria.**—Month of August, 1901. Estimated population, 20,000. Total number of deaths, 22, including 1 from scarlet fever.

**BRITISH GUIANA—Demerara—Georgetown.**—Month of July, 1901. Estimated population, 36,567. Total number of deaths, 169, including 2 from tuberculosis.

**CANADA—Quebec—Sherbrooke.**—Month of August, 1901. Census population, 11,765. Total number of deaths, 18, including 1 from scarlet fever.

**CHILI—Antofagasta.**—Month of July, 1901. Estimated population, 8,000. Total number of deaths, 60, including enteric fever 1, and 5 from tuberculosis.

**CUBA—Santiago.**—Month of July, 1901. Estimated population, 45,000. Total number of deaths, 107, including 16 from tuberculosis.

**FRANCE—St. Etienne.**—Two weeks ended August 15, 1901. Estimated population, 146,671. Total number of deaths, 97, including measles, 1, and 1 from whooping cough.

**GREAT BRITAIN—England and Wales.**—The deaths registered in 33 great towns in England and Wales during the week ended August 24, 1901, correspond to an annual rate of 21.6 per 1,000 of the aggregate population, which is estimated at 11,463,026. The highest rate was recorded in Gateshead, viz, 30.2, and the lowest in Huddersfield, viz, 14.3.

**Bradford.**—Two weeks ended August 24, 1901. Estimated population, 279,809. Total number of deaths, 213, including enteric fever, 4; scarlet fever, 1; whooping cough, 6, and 21 from tuberculosis.

*London.*—One thousand six hundred and seventy-six deaths were registered during the week, including measles, 26; scarlet fever, 12; diphtheria, 27; whooping cough, 17; enteric fever, 25, and diarrhea and dysentery, 375. The deaths from all causes correspond to an annual rate of 18.8 per 1,000. In Greater London 2,342 deaths were registered, corresponding to an annual rate of 18.5 per 1,000 of the population. In the "outer ring" the deaths included 13 from diphtheria, 23 from measles, 2 from scarlet fever, and 4 from whooping cough.

*Ireland.*—The average annual death rate represented by the deaths registered during the week ended August 24, 1901, in the 21 principal town districts of Ireland was 21.6 per 1,000 of the population, which is estimated at 1,079,708. The lowest rate was recorded in Waterford, viz, 7.8, and the highest in Newry, viz, 45.6 per 1,000. In Dublin and suburbs 179 deaths were registered, including scarlet fever, 1, and 1 from whooping cough.

*Scotland.*—The deaths registered in 8 principal towns during the week ended August 24, 1901, correspond to an annual rate of 17.8 per 1,000 of the population, which is estimated at 1,656,525. The lowest mortality was recorded in Paisley, viz, 14.4, and the highest in Dundee, viz, 20.6 per 1,000. The aggregate number of deaths registered from all causes was 566, including measles, 12; scarlet fever, 3, and 8 from whooping cough.

*JAVA—Batavia.*—Two weeks ended August 3, 1901. Estimated population, 150,000. Number of deaths not reported. No contagious or epidemic diseases.

*JAMAICA—Port Antonio.*—Two weeks ended August 31, 1901. Estimated population not reported. No deaths and no contagious diseases.

*ITALY—Genoa.*—Month of June, 1901. Estimated population, 230,969. Total number of deaths, 345, including diphtheria, 2; enteric fever, 2; measles, 3; scarlet fever, 1; whooping cough, 1, and 43 from tuberculosis.

*MALTA.*—Two weeks ended August 17, 1901. Estimated population, 208,113. Total number of deaths, 187. No deaths from contagious diseases.

*NORFOLK ISLAND.*—Month of June, 1901. Estimated population, 854. No deaths and no contagious diseases.

*SPAIN—Cadiz.*—Month of July, 1901. Estimated population, 67,897. Total number of deaths, 174, including enteric fever, 1; measles, 1, and 27 from tuberculosis.

*Cholera, yellow fever, plague, and smallpox, June 28, 1901, to September 20, 1901.*

[Reports received by the Surgeon-General United States Marine-Hospital Service from United States consuls through the Department of State and other sources.]

[For reports received from December 28, 1900, to June 28, 1901, see PUBLIC HEALTH REPORTS for June 28, 1901.]
